# Goal

A platform that supports ERP professionals to deliver more value

Execution Approach

Iterative approach. Deliver feature by feature.

- **Quick wins**
- **Measurable progress**
- **Market attention**

Features

- <mark>Interview preparation</mark>

- Knowledge backup (support request)

- AI Agent

- Best practices

- Career Growth (Skill analysis, growth, hubs)

Component of Interview Preparation Feature

Section	No. Page	Pages
Website	3	Landing | Pricing | Terms and condition
3-page site. Dynamic pricing based on your country's economic standard. Less fee for Africans in Africa and Asia. Standard price for Europe & America. Users book for the appointment from the website.		
Expert	5	Modal | Landing | Profile | interviews (appointments) | Withdrawal | Feedback
From the modal we are collecting the necessary information from expert.		
Individual	4	Landing | Interview (Appointments) | New Interview modal | Feedback
The individual (professional) would be booking interview appointment from the website, there is no need for modal yet. And it's the only feature		
Admin	2	Withdrawal request | Appointments
The admin aspect is tentative.
